

2007 SEMINAR SERIES #1

The Cost Problem Associated with Healthcare: One Solution

This presentation will be of interest to ALL employers regardless of product/service or size. It clearly identifies the cost drivers for healthcare and presents “Consumer Based Health Plans” as a reasonable approach to bring healthcare costs under control by putting the consumer in charge of making healthcare decisions.

Who should attend? All employers who have health plans or are looking to streamline costs. This is NOT a sales pitch, but rather, a look at options that are available to all employers interested in providing benefits at a reasonable cost.

Presented by Brian Driscoll and Bill Carew, Ovation Benefits Group, Inc.
